No School Fri. Nov 1

Taking Time Tool

This week we are giving children the power to take time for themselves rather than wait for an adult to choose that path for them. With the Taking Time Tool we are teaching children the power of self-control.

The Taking Time Tool has two distinct purposes. Time-away allows us to physically remove or distance ourselves to create more space from the heat of conflict.

Time-In simply means to take some time to check-inside oneself to see what is needed. This is not about telling a child they need a "time out." It is more a reminder to turn inward for self-reflection.

Thank you

Thank you to all the parents and students who helped plant the new garden at the front of the school. We appreciate those who donated money and time to make it happen. Check out the pictures on our Englewood website.
